# COMPANY PROFILE

**Agent for all types of plywood formica furniture, building material, etc.**

**HS SUPPLY SDN BHD** is a Malaysian-based company that specializes in supplying high-quality laminate HPL, plywood, MDF, and melamine panels for use in interior design, property development, and the construction industry. For many years, we have been committed to providing superior materials and excellent customer service, and we have earned a wide range of trust and praise.

### **Mission**

Our mission is to provide high-quality and sustainable materials that meet the specific needs of our customers while minimizing our environmental impact. We aim to be a reliable and trustworthy supplier in the interior design, property development, and construction industries, delivering tailored services to meet the unique requirements of each project.

### **Vision**

Our vision is to be a leading provider of panel materials for the interior design, property development, and construction industries in Malaysia and beyond. We strive to continually improve our products and services through innovation and collaboration, fostering long-term partnerships with our customers based on mutual trust and respect.

We offer a wide selection of panel options that include various colors, textures, thicknesses, and sizes to meet a wide range of interior design needs. Our materials are highly durable, aesthetically pleasing, and easy to clean, and we also offer custom color and size options. Our customers can enjoy tailored services to meet their specific project requirements, and our prices are highly competitive.

## Serving Industries

Our customers span the interior design industry, property developers, and construction companies, with our panel products widely used in both interior and exterior design, including hotels, shopping malls, hospitals, offices, and residential buildings.

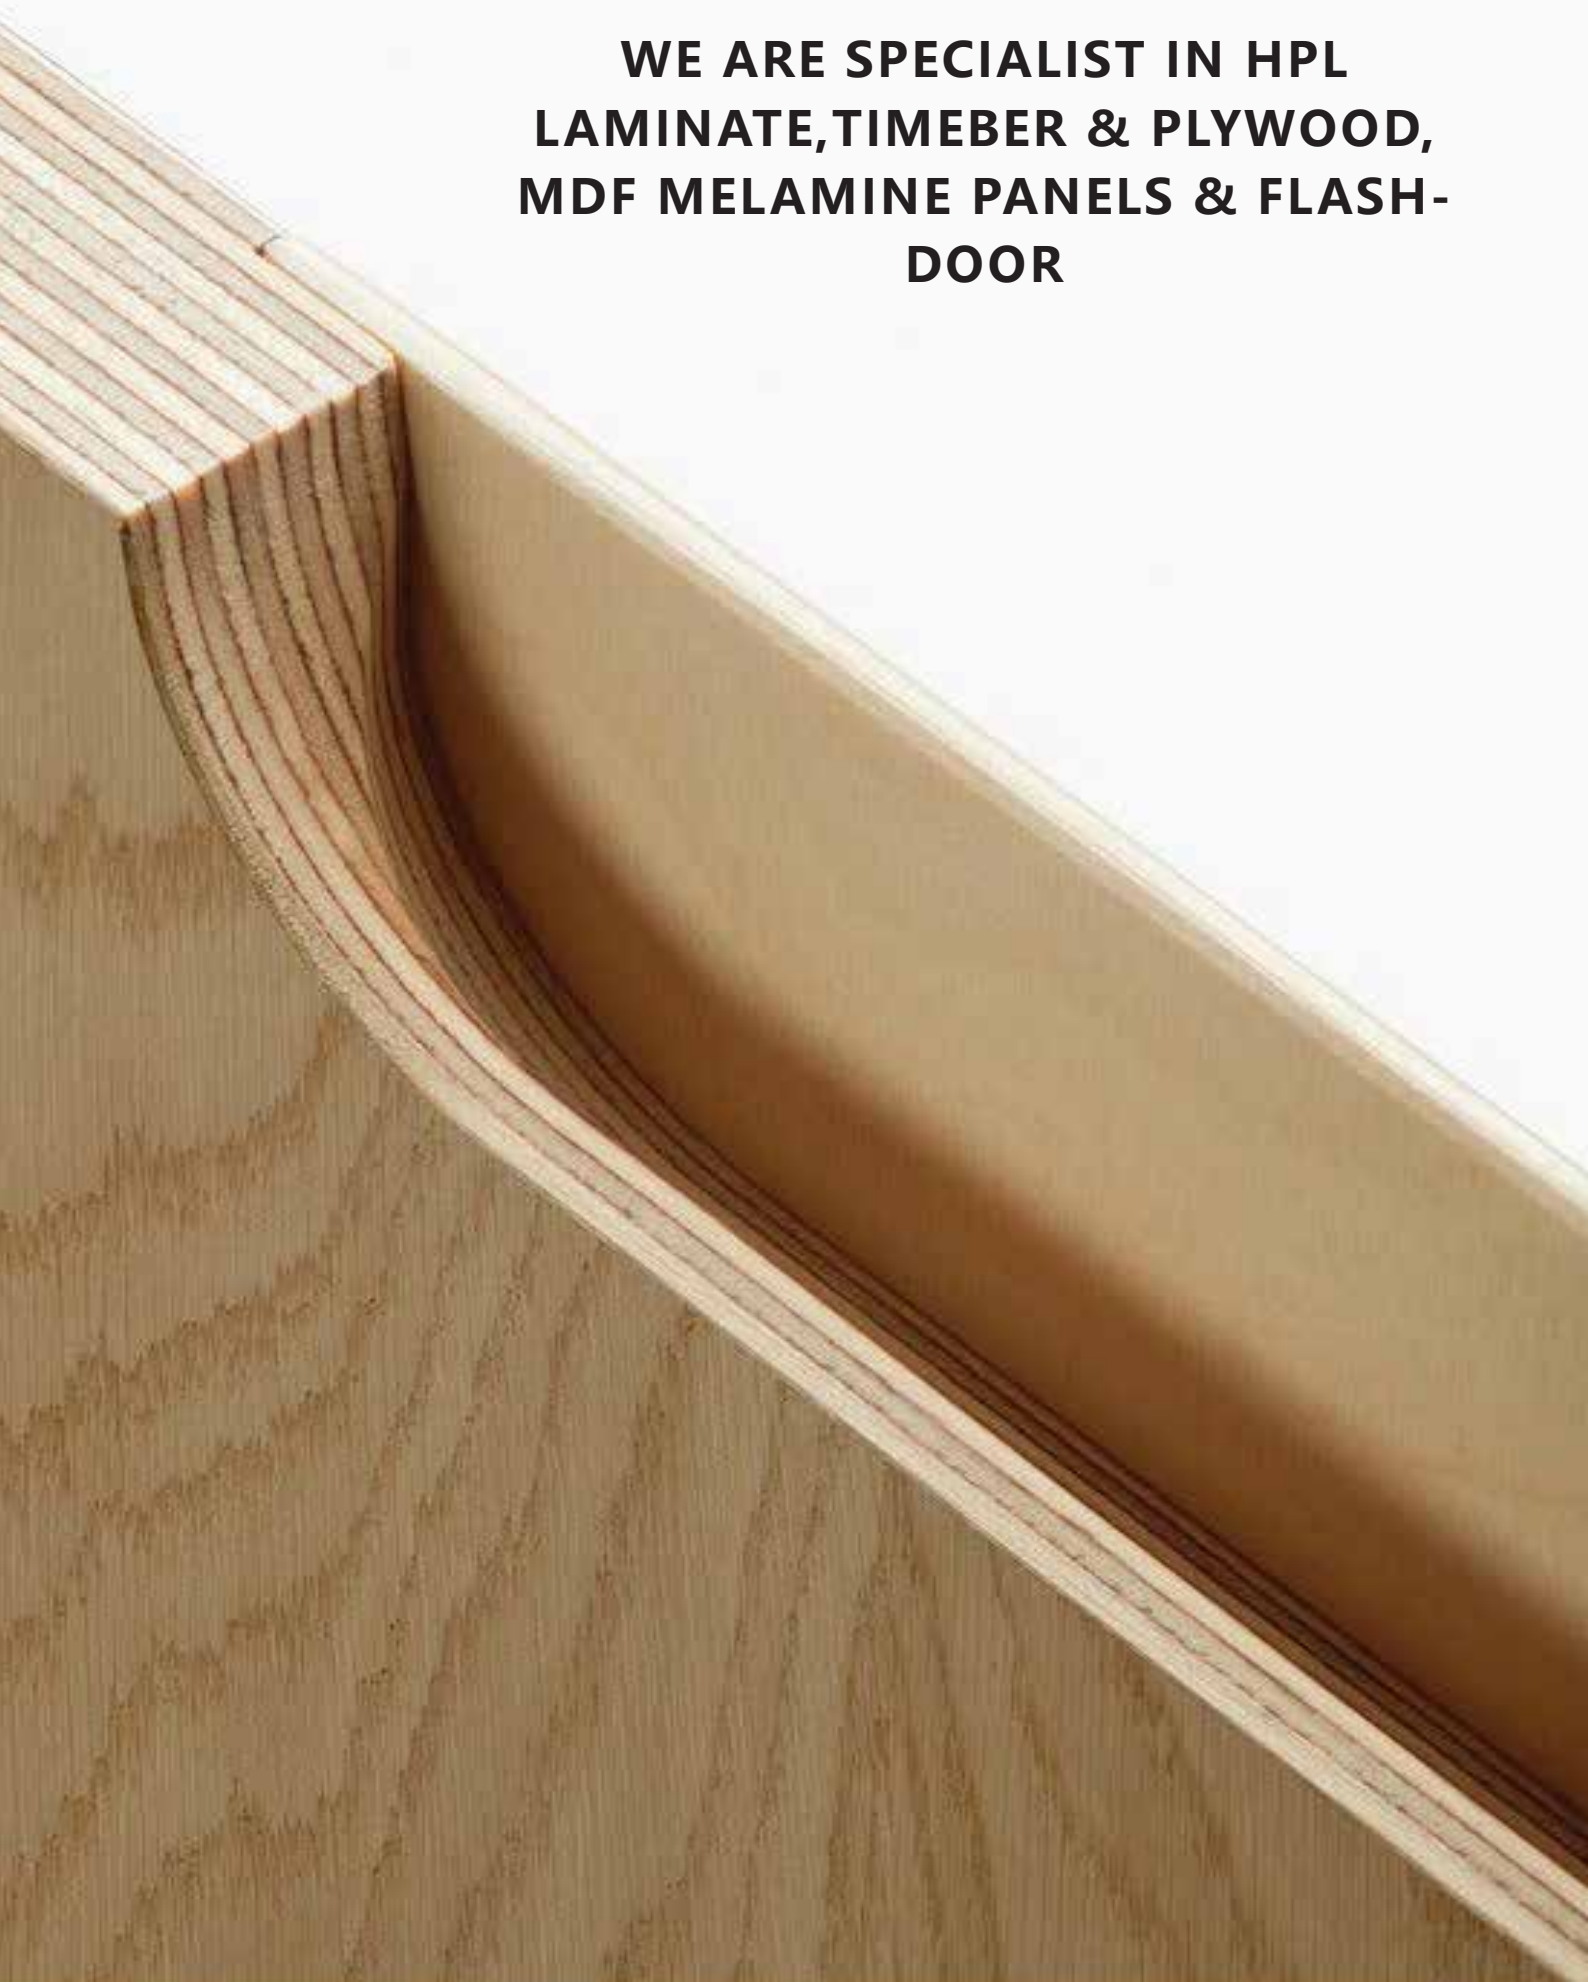

## Sustainability Commitment

We prioritize environmental friendliness during our production process and use sustainable materials and manufacturing processes to minimize our environmental impact. We ensure that all products comply with international standards and requirements, and we continually optimize our production process to improve efficiency and reduce waste.
